- Basic French
- Basic Catalan

ABOUT ME

After studying and working in the field of communication and journalism, I became interested in programming. I trained as a **front-end developer** and currently combine my technical skills with a creative vision, which allows me to bring value to the **UX/UI design** of products.

I'm used to working in teams with **agile methodologies**, leading projects, and, above all, I stand out for being deeply involved with the product and for contributing ideas that help enhance its value.

TECH STACK AND TOOLS

- **Languages:** JavaScript, TypeScript, HTML5, CSS, SASS.
- **Frontend:** React, React Native, Astro, Tailwind CSS, Vite, Lottie (animaciones JSON).
- **Backend:** Node.js, Express, SQLite, API REST.
- **Tools:** Git, GitHub, GitLab, Jira, Figma.
- **Testing:** Jest.
- **Design & Multimedia:** Figma, Adobe Premiere, Adobe After Effects.
- **Content Management Systems:** Wordpress, Prestashop.
- **Other Knowledge:** SEO técnico, Diseño responsive, Accesibilidad web, Metodologías ágiles (SCRUM).

CERTIFICATIONS

- **JavaScript Bootcamp** (Lemoncode, 2025)
- **Basic Training in Cloud Technologies** (Euroformac, 2025)
- **Understanding Typescript** (Udemy, 2025)
- **Web Development with HTML, CSS y JS** (Udemy, 2025)
- **Adobe Premiere Course** (AuraProds, 2021)
- **SEO and Google Ranking Course** (Udemy, 2021)

WORK EXPERIENCE

Front-End Developer (Feats, 2024-Present)

- Designed the user experience (UX) and user interface (UI) of the app screens using **Figma**.
- Developed components and features in **React Native** with **Expo**, ensuring responsive design across different screen sizes and cross-platform compatibility.
- Created animations in **Adobe After Effects** and implemented them in the app as .json files using **Lottie**.
- Integrated the app with a **REST API** through HTTP requests.
- Performed unit testing using **Jest**.
- Worked in an agile environment using **SCRUM methodology** and task management in **Jira**.

Full-Stack Developer (OasisLive, 2025)

- Developed a real estate website as a freelancer, allowing the client to upload and update property listings for users to view available properties.
- Implemented the backend with **Node.js** and **Express**, using **SQLite** as the database and **Cloudinary** for image storage.
- Built the frontend with **Astro**, leveraging static site generation (**SSG**) to improve loading speed and **SEO**. Styles were implemented with **Tailwind CSS**.

Web Administrator (BioShop El Cambio, 2022)

- Managed products, sales, and customers using **PrestaShop**.
- **Analyzed sales databases** to design and execute promotional campaigns.

Producer and Community Manager (COPE, 2021)

- Hosted and produced radio programs.
- Managed social media accounts and **digital content**.

SEO Content Writer (BeSoccer, 2021)

- Wrote news articles and managed current content with a strong focus on **SEO**.
